Application No. 10/786,814

**Amendments to the Specification**

Please replace paragraph 24 with the following amended paragraph:

The mid-panel 20 may be connectable to the bottom panel 10 and the end panels 12 and 14 respectively by releasable fasteners (e.g., 90, 02 in Figure 4) and more particularly by a loop type fastener such as known by the trade name Velcro. In this manner, the mid-panel 20 may be disengaged from the bottom wall panel 10, and the first and third end walls 12 and 14 to provide access to a connected set of compartments 40 and 42 defining a single compartment. Thus, the separate compartments 40 and 42 will be joined together to form a single compartment. Alternatively, the mid-panel 20 could be sewn in place as described previously to provide first and second separate compartments 40 and 42 for the bag.
